

**Figure 1**

The figure shows a grid of horizontal bars representing different experimental designs. The x-axis is labeled "Number of Subjects per Group" and ranges from 0 to 100. The y-axis is labeled "Number of Groups" and ranges from 0 to 10. Each bar represents a specific combination of N and G. The bars are arranged in a grid-like pattern, with the number of groups increasing as the number of subjects per group decreases.
